

Rekenen tot 20 met getalbeelden

Nodig:

- De kaartjes uit dit bestand
- Het invulblad

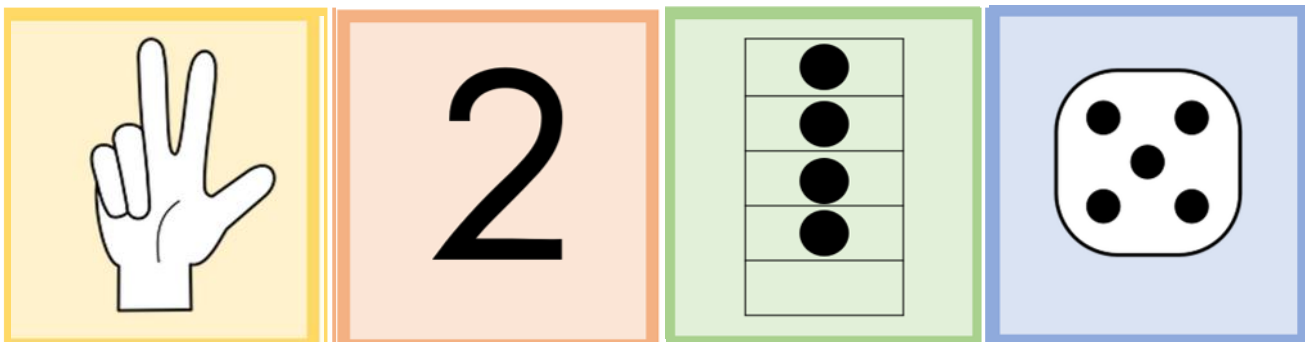

Vorbereiding:

Print alle onderdelen uit en lamineer ze. Je kunt de kaartjes en het invulblad dan vaker gebruiken. Print pagina 1 t/m 8 staand uit en pagina 9 liggend.

Bedoeling:

Maak 4 stapels van de kaartjes. Maak stapels op kleur, je krijgt dan een gele, blauwe, groene en oranje stapel. Geef iedereen een invulblad. Pak van elke stapel één kaartje en leg deze op de juiste plek. Boven de kaartjes schrijf je het bijbehorende getal. Er komt nu een som uit. Reken de lange som handig uit. Je kunt natuurlijk alleen de kaartjes gebruiken en steeds twee kaartjes trekken. Je krijgt dan een normale som in plaats van een lange som.

$$\begin{array}{ccccccc} 3 & & 2 & & 4 & & 5 \\ \hline & + & & + & & + & \end{array}$$

= ?
