

Sommen met tientaloverschrijding

Wat kun je doen met deze kaartjes?

1- Memory

Zoek de juiste kaartjes bij elkaar. Let op: wanneer je dit spel klaarmaakt voor memory, moet je zorgen dat je gekleurd papier op de achterkant plakt. Anders zullen de kaarten doorschijnen.

2- Flitsen

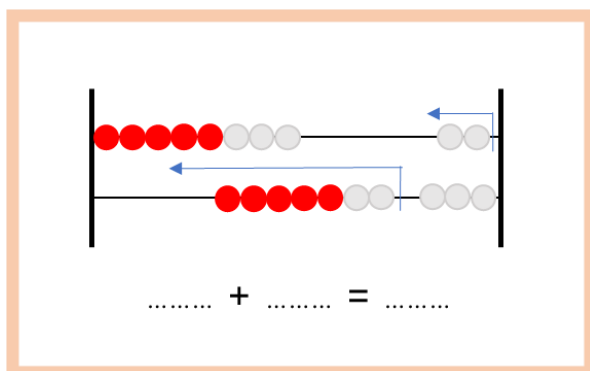

Deze kaartjes kunnen goed gebruikt worden om te flitsen met het rekenrek. De kinderen schrijven de som op het wisbordje.

3- Zoek je maatje

De kinderen krijgen allemaal een kaartje. Ze lopen rond in de klas en zoeken hun partner. Kinderen met een som zoeken dus degene met het bijbehorende rekenrek. Kinderen met het rekenrek zoeken iemand met de bijbehorende som. Gevonden? Blijf bij elkaar staan. Als iedereen een maatje heeft, kun je samen de antwoorden controleren.

Natuurlijk kun je de kaartjes op nog veel meer leuke manieren inzetten. Veel plezier ☺
